WARNING:

EMERGENCY CALLS On Party Lines

INDIANA STATE LAW

Concerning Use of Party Lines in Cases of Emergency

A statute enacted by the 1955 Indiana Legislature makes it unlawful to misuse party line telephone service in cases of emergency. An emergency is defined in the law as "a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential." The law, in part, reads as follows:

Section 2. It shall be unlawful for any person using a telephone on a party-line to refuse to yield such party-line, when requested to do so, to any person who wishes to place an emergency call from a telephone on such party-line. Any person who violates the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding twenty-five dollars to which may be added imprisonment in the county jail for any period not exceeding ten days.

Section 3. It shall be unlawful for any person to obtain the use of a telephone on a party-line by falsely alleging the existence of an emergency. Any person who violates the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding twenty-five dollars to which may be added imprisonment in the county jail for any period not exceeding ten days.

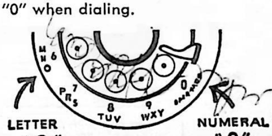
Ringing Signal



A soft "burr-r-ring" repeated at regular intervals means that the telephone you dialed is ringing. Give your party time to answer—about 10 rings—before you hang up.

The Busy Signal

A steady "buzz-buzz-buzz" sound means the line you called is in use. Hang up and call again later.

Letter "O"—Numeral "0"

Please be careful not to confuse the letter "O" with the numeral "0" when dialing.

Calling Another Party on Your Line

To obtain information on how to call another party on your line, dial "114" Repair Service.

3 GIVE THE OPERATOR YOUR NUMBER IF SHE ASKS FOR IT

From some telephones an operator will ask "Your number, please?", before the called telephone rings. Be sure to give her the number from which you are calling.

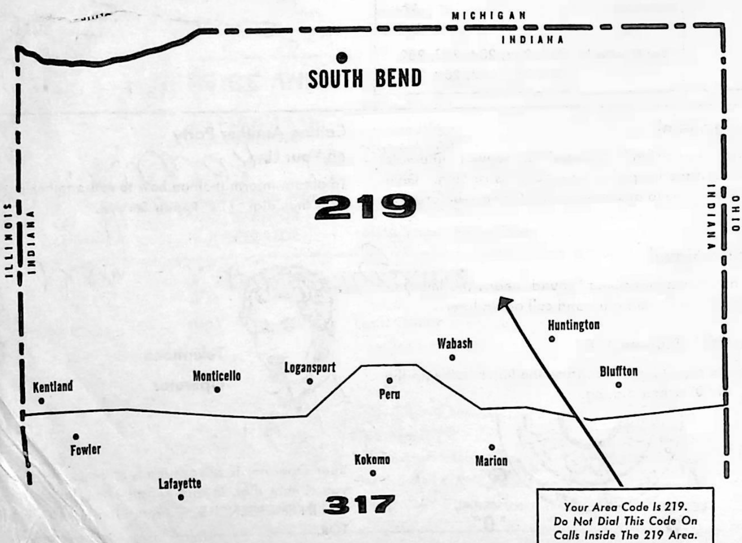
4 IF YOU REACH A WRONG NUMBER

—dial "Operator" immediately, give her your number, and tell her what city and number you reached, also the city and number you **wanted** to reach so you will not be billed for the call. Even if you don't know the name of the city you reached, call the Operator promptly.

If you don't know the area code or number . . .

1 HOW TO GET THE AREA CODE

A partial list of places you can dial direct and their area codes are shown on pages III-VII. If the place you want is not listed, dial "Operator" and ask her if it can be dialed.



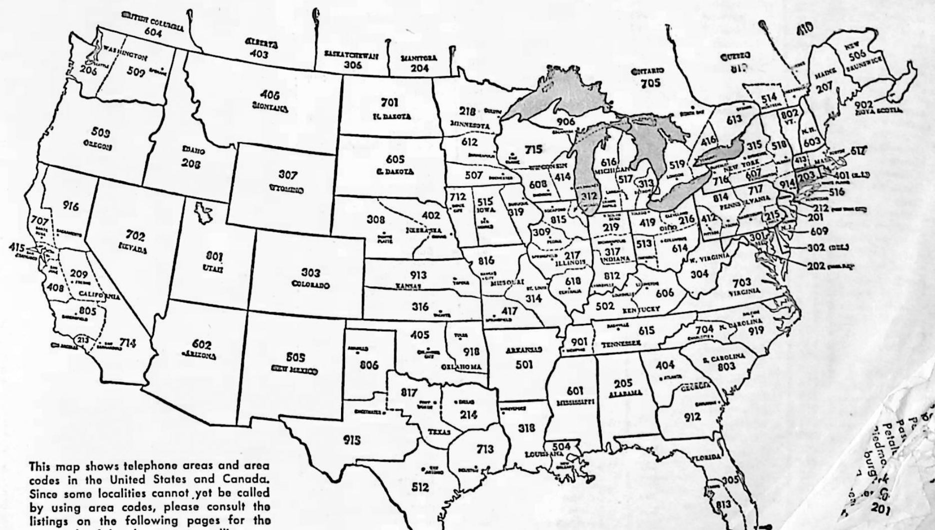
2 HOW TO GET THE NUMBER

If you don't know the out-of-town number, you can dial without charge the Information Operator serving the distant place. Dial 1, then the area code (if it is different from the one for the telephone you are using), then 555-1212. When the Information Operator answers, first give her the city or town, then the name and address you are calling.

—"Look it up

—Jot it down

—Dial carefully"



AREA CODES FOR SOME CITIES

Even on calls you must place with the Long Distance Operator, the area code will help you get them through faster. Just give her the area code (if it is different from the one for the phone you are using) and the telephone number you want. For example, say "Area code 311, 555-2368." If the Operator needs to know the place name, she will ask you for it.
